Astro Harvard Lantern Outdoor Wall Light

The Astro Harvard Lantern Outdoor Wall Light is a modern interpretation of the traditional lantern, combining a crisp, slimline box shape with clear glass panels and a Textured Black finish. The exposed lamp sits visibly within the stainless steel frame, giving the fitting a familiar lantern character while keeping the overall look clean and architectural.

Rated IP44, Harvard Lantern is designed for exterior use and can also be installed in bathroom zones 2 and 3. Its clear glass panels allow the chosen lamp to remain part of the visual effect, creating a warm, decorative glow around entrances, exterior walls, and covered outdoor areas.

Harvard Lantern uses one E27 lamp, sold separately, and is dimmable when paired with a compatible dimmable bulb. It is wired in, suitable for mounting on flammable surfaces, and built for outdoor-grade protection. Please note that this product is not suitable for installation within five miles of the coast. Best suited to front doors, entranceways, patios, garden walls, covered outdoor areas, and bathroom zone 2 or 3 wall lighting.

PRODUCT SPECIFICATION
