## PRODUCT DESCRIPTION

**Designer:** Astro Design Team

### Astro Harvard Lantern Outdoor Wall Light

The Astro Harvard Lantern Outdoor Wall Light is a contemporary take on the traditional lantern, combining a slimline box shape with clear glass panels and a textured black finish. Its crisp silhouette gives it a clean, architectural look, while still retaining the familiar character of a classic outdoor lantern. The exposed lamp sits visibly within the frame, helping to create a warm and welcoming glow around entrances and exterior walls.

Designed for outdoor use, Harvard Lantern works particularly well beside front doors, along garden walls, on patios and under canopies. Its IP44 rating also makes it suitable for bathroom zones 2 and 3, offering flexibility for a range of residential and hospitality settings. The combination of stainless steel and clear glass gives it a durable, practical build with a neat and timeless appearance.

Harvard Lantern uses one E27 lamp, sold separately, and is dimmable when paired with a compatible dimmable bulb. Suitable for mounting on flammable surfaces, it is a versatile fitting for both decorative and functional outdoor lighting. Please note that this product is not suitable for installation within five miles of the coast.
