Astro Harvard Outdoor Pendant Light

The Astro Harvard Outdoor Pendant Light is a contemporary outdoor pendant based on the traditional lantern, with a slimline stainless steel frame and clear glass panels. Its exposed lamp design gives it a decorative quality while still feeling restrained, making it suitable for spaces where an outdoor fitting needs more presence than a wall light or ceiling light.

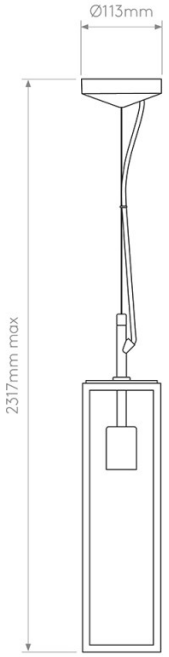

Finished in Textured Black, the Harvard Pendant has a slim metal frame with clear glass panels, keeping the lamp visible from all sides. It works best in covered outdoor spaces such as porches, entrances, and sheltered walkways, where the exposed lamp can give a soft, decorative light.

Rated IP44, the Harvard Pendant is suitable for outdoor use and bathroom zones 2 and 3. It uses one E27 lamp, sold separately, is dimmable when paired with a compatible dimmable bulb, and includes 360° rotation adjustability for ceiling-mounted installation. Please note that this product is not suitable for installation within five miles of the coast.

Best suited to covered entrances, porches, sheltered terraces, outdoor walkways, hospitality entrances, and bathroom zone 2 or 3 pendant lighting.
