PRODUCT DESCRIPTION

Designer: Tokujin Yoshioka

Mini Planet LED Table Lamp by Kartell

The corded/non-dimmable version of the [Mini Planet](#), this is the latest addition to the [Kartell Planet collection](#) designed by Tokujin Yoshioka. The Mini Planet table lamp is perfect for many interiors, being particularly useful on beside tables, shelves, desks and windows, thanks to its small size. The diffuser is made from PMMA with a crystallised shape that makes it look like a luxurious gem.

The integrated LED light source is diffused and reflects off the shade, creating an effective and eye-catching glow that will create a warm ambience in the room. The Mini Planet table light is available in three beautiful colours, crystal, smoke and yellow, so you can find the right match for your space. You can also pair with other lights from the range for a consistent light scheme throughout.
