PRODUCT DESCRIPTION

Designer: Paul Cocksedge

Moooi Gravity LED Chandelier Light

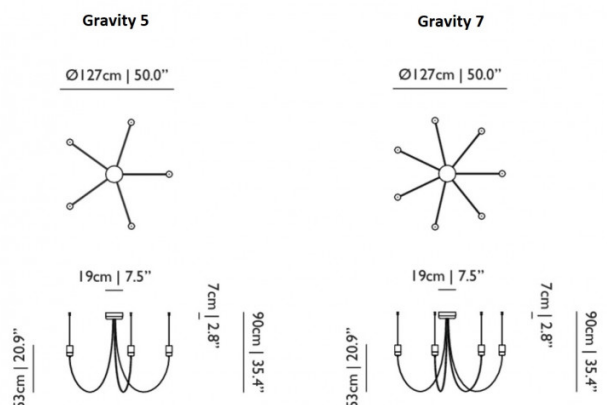

Designed by Paul Cocksedge, the Gravity Chandelier is an exclusive light made for Moooi. The Gravity light echoes a traditional chandelier, its arched form mirroring the classic silhouette. The flexible cables allow for customisation as the user can direct where each branch sits. This well-considered detail showcases the innovative and versatile design of the Gravity Chandelier.

This lamp is available in 2 versions: the Gravity 5, which has 5 light sources, and the Gravity 7, which has 7 light sources. Each lampshade is made from faceted glass, which creates a warming and inviting glow as the LED source shines through. Install the Gravity LED Chandelier in entrance halls, stairwells, or above a dining table, for an eye-catching display that will leave a lasting impression.

Please note The Moooi Gravity LED Chandelier Light is compatible with the Moooi wireless dimming switch, which is available to purchase separately and enables you to dim your Moooi suspension fitting without the need for additional wiring. The Wireless switch comes with a dimmable module that is fitted inside the ceiling canopy of your light. You can then use the switch to dim your Moooi Gravity LED Chandelier to the perfect lumens output. Please [contact us](#) for further information and prices.

PRODUCT SPECIFICATION

Light Source:	Gravity 5: 18W, 2614K, 1025 Lumens Gravity 7: 25W, 2614K, 1434 Lumens
