PRODUCT DESCRIPTION

Designer: Richard Sapper

Artemide Tizio 35 Table Lamp

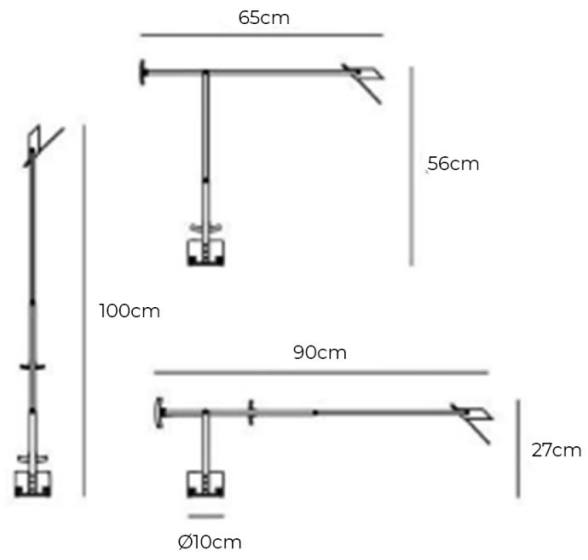

The Artemide Tizio 35 is the medium size in the Tizio collection, designed by Richard Sapper. Featuring a minimalistic industrial silhouette and a sleek black finish, the Tizio 35 is an excellent addition to offices and other workspaces. This task light is fitted with adjustable counterbalanced arms and a head in painted aluminium, which houses the light source. The inner bulb is fitted behind a plastic diffuser, ensuring that the emitted illumination is flare-free while remaining functional.

The design of the Artemide Tizio 35 Table Lamp is unique and requires no cables; the low-voltage current is simply carried along the conducting arms of Tizio itself. The counterbalance system ensures that Tizio is always in balance and can be set in almost any position. This ensures you can easily personalise the direction of the light output and move it to the most comfortable position. The Tizio gives direct, adjustable light with two light levels. The **Tizio Collection** includes a floor stand to make your Tizio Lamp even more adaptable.

Please Note: Due to the current size of LED bulbs, the Tizio is designed for a halogen bulb and as such we recommend using a halogen bulb for smooth functionality.

PRODUCT SPECIFICATION

Light Source:	1 x Max 20W GY6,35 (Excluded)
IP Code:	20
Dimming:	Integrated two-stage dimmer on the base.
Dimensions:	Height: 27-100cm Length: 65-90cm Base: Ø10cm
