PRODUCT DESCRIPTION

Designer: Poul Henningsen

PH 4½-3½ Glass Table Lamp by Louis Poulsen

Designed by Poul Henningsen, the PH 4½-3½ Glass table lamp has a 3 shade fixture that was made by Henningsen in the winter of 1925-26 for a large exhibition hall in Copenhagen, Denmark called "Forum". Still a relevant design today, the lampshade nicely diffuses the light throughout the layers, concealing the light source to produce a warm glow. The table lamp has a chic chrome structure that modernises the vintage form and beautifully reflects the surroundings.

The PH 4½-3½ Glass table light can be used in many interiors, whether at home or in a professional setting. The table light will provide a comfortable and inviting atmosphere and can also be used to provide a handy light for reading or tasks. Combing timeless ideals with a contemporary perspective, use on tables, desks, side tables or shelves.

Please note, this product is currently subject to an extended lead time of up to 12 weeks.

PRODUCT SPECIFICATION

Light Source: 1 x Max 12W E27 LED (excluded)

IP Code: 20

Dimming: Integrated on/off switch on the product.

Dimensions: Shade: Ø45cm
