PRODUCT DESCRIPTION

Designer: Verner Panton

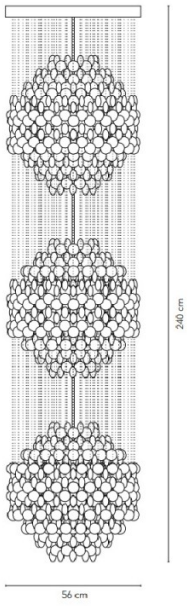

Verpan Fun 3DM Suspension

The Verpan Fun 3DM Suspension is an iconic light designed by Verner Panton, who utilised cascading mother-of-pearl discs for a captivating piece that combines sculptural form with functionality. The suspension's impressive size is comprised of three shades, attached by intricate metal chains.

When illuminated, the Fun 3DM produces gentle, atmospheric lighting. In contact with movement or wind, the seashell discs create a shimmering effect and produce a melodic sound that brings a sense of life to the suspension. Display in a stairwell or entrance hall for a distinctive statement. In commercial spaces, the Fun 3DM is well-suited to hotel lobbies and restaurants, adding a welcoming ambience while creating a lasting impression.
