PRODUCT DESCRIPTION

Designer: Hopf & Wortmann

KDLN Atomium Pendant

The Atomium Pendant, designed by Hopf and Wortmann, is inspired by a magnified view of the atom. Using organic and sinuous lines, the Atomium lies somewhere between science and art. Display in residential and commercial settings for an eye-catching luminaire that adds a strong sense of personality to the space.

The Atomium Pendant is crafted from a rotational-moulded polyethylene diffuser and inner structure, resulting in a structure that is as sculptural off as it is when switched on. Six light sources within the pendant offer an even, glare-free glow for comfortable ambient lighting. Display individually or repeat several to line a long table. In larger spaces, create dynamic clusters of light by installing multiples at varying heights.

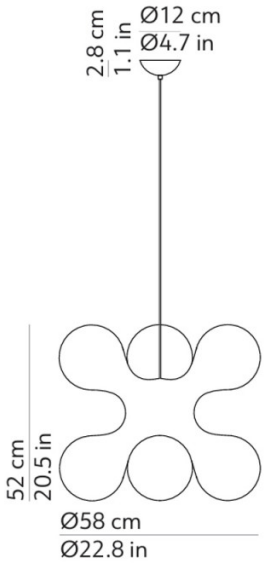

PRODUCT SPECIFICATION

Light Source: 6 x Max 40W E14 (Excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Ø58cm
Height: 52cm
Ceiling Canopy: Ø12cm
Cable Length: 180cm
