PRODUCT DESCRIPTION

Designer: Paolo Rizzatto

Luceplan Costanzina Suspension

The Luceplan Costanzina Suspension Light combines tradition and technology. Designed by Paolo Rizzatto in 1986, this light harnesses a timeless elegance and can settle perfectly in to any décor style due to its easy personalisation. The interchangeable shade comes in ten different colours and diffuses a warm and pleasant light, perfect for reading, working, writing or just resting.

The Costanzina can vary its height from 1 to 2.5 metres, it is easy to adjust by the counterweight that hangs from the ceiling rose as seen on the specification sheet. The counterweight is white, ensuring it blends in well with the design. This suspension light also harbours an integrated on/off switch in the form of a control rod that hangs from the shade, close to the light source - the design ensures that this is easy to reach.

PRODUCT SPECIFICATION
