PRODUCT DESCRIPTION

Designer: Miguel Milá

Santa & Cole Sexta Suspension Light

The Sexta suspension lights remind us something of the medieval cast iron lights, with multiple light sources. Designed by Miguel Mila, Sexta delivers a large suspension light with double-sided shades that create an evenly distributed ambience. The [Estadio lights](#) were the predecessor of the Sexta suspensions and will create a perfect balance in the room if combined in the same space.

Each double-sided shade is subdivided into six sections of 60° and there are various support options to choose from. The suspension can be supplied without a telescopic tube (drop height is 34cm) or with a telescopic tube in a choice of 75, 152 or 302cm max height. The larger suspension provides 12 30° sections.

The lower discs are not supplied and are optional in the configuration of the lights. Please [contact us](#) for more information.

PRODUCT SPECIFICATION

Light Source: **Small:** 6 x Max 11W E27 LED (included)
Large: 12 x Max 11W E27 LED (included)

IP Code: 20

Dimming: Dimmable via mains phase dimming.
