PRODUCT DESCRIPTION

Designer: Verner Panton

Verpan Fun 11DM Suspension

The Verpan Fun 11DM Suspension was designed by Verner Panton in 1964 as part of the FUN collection which has now become an iconic collection which is considered as one of Panton's greatest masterpieces. Panton wanted this design to cast a diffused light whilst giving optimal effect in a coloured interior. This has definitely been achieved with the development of the Verpan Fun 11DM Suspension ceiling light which features cascading seashell discs which have become a design classic in the Verpan brand.

The seashell material naturally gently diffuses light through as it highlights the detailed features of each individual seashell disc. However, the seashells do not take away from the generous outpouring of light which is emitted from the iconic suspended ceiling lamp. This design is available in two finishes, chrome and brass. Both finishes highlight the natural beauty of the seashells and bring an elegant touch to any room.

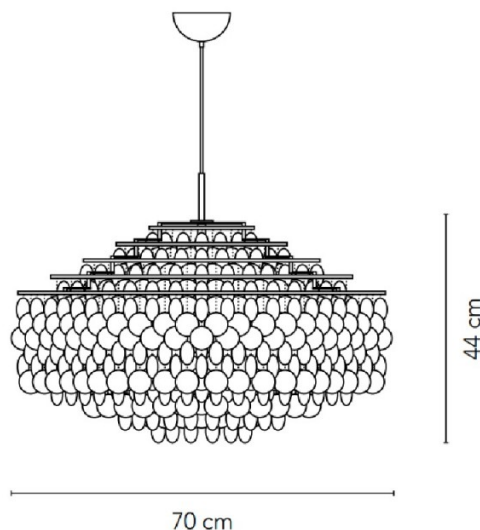

PRODUCT SPECIFICATION

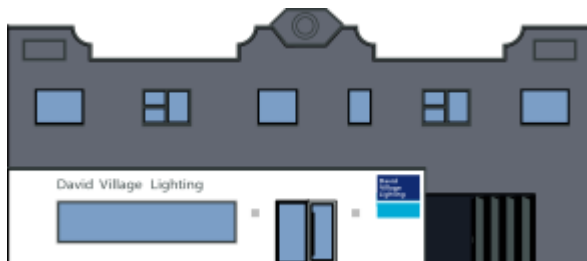

Light Source: 1 x max 60W E27 (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming

Dimensions: Ø70cm
44cm height
400cm cable length
